

To employees and physicians,

Beginning Monday, June 10, the City of Clovis will begin major roadwork lasting approximately 45 days on Temperance Avenue which runs parallel and west of the Clovis Community campus.

The work will limit travel to one lane in both northern and southern directions between Herndon Avenue and the Freeway 168 underpass. Heavy traffic congestion is also expected at the Fir and Temperance Avenue stoplights in front of the hospital.

To ensure our patients and visitors can enter and exit our campus at all times, **employees and physicians should:**

1. Avoid traveling along Temperance Ave. between Herndon Ave. and the Freeway 168 underpass

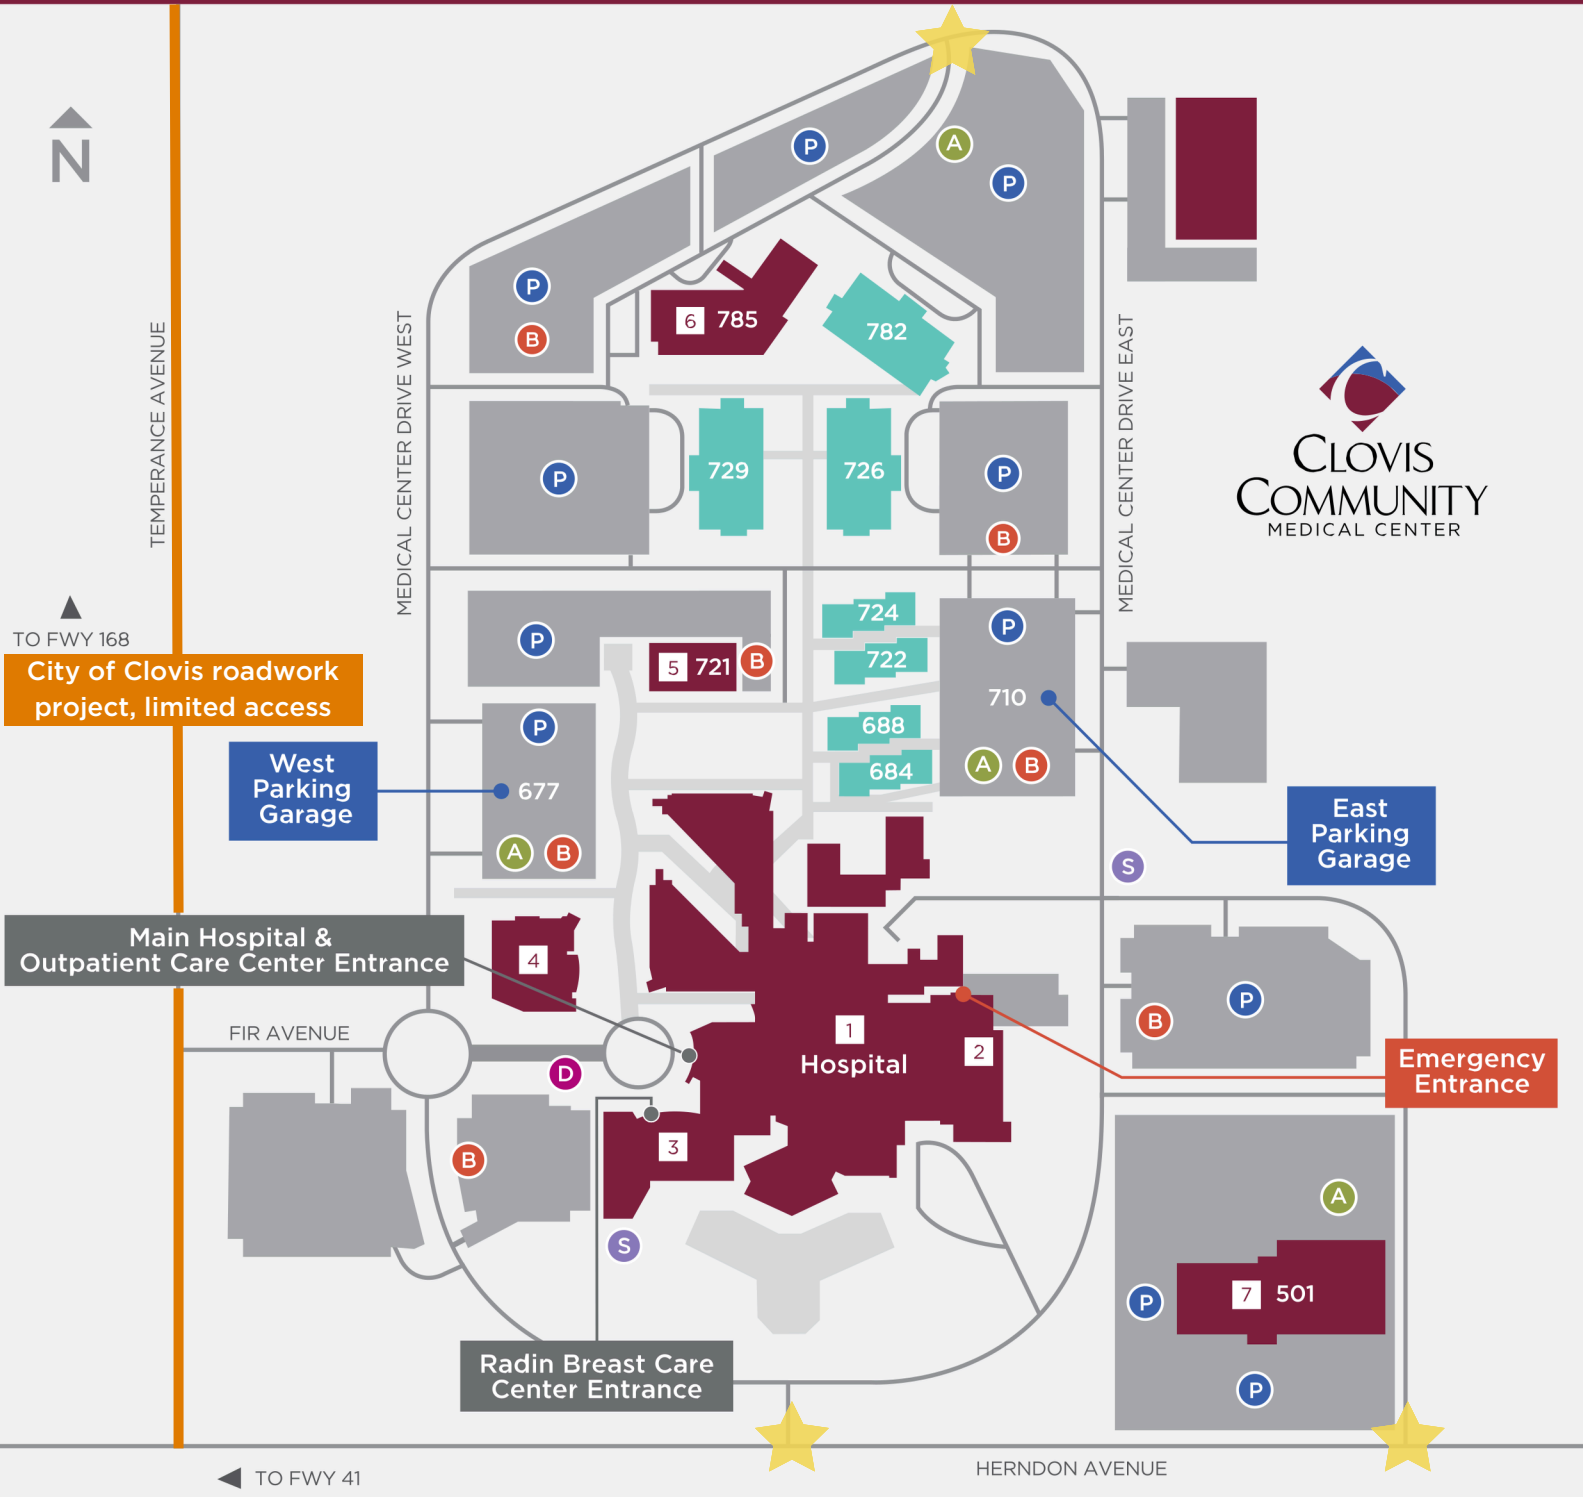

- Use alternative streets to enter and exit the Clovis Community campus like:
 - Herndon Ave. or Fowler Ave. exits on Freeway 168, if coming towards the facility from the west
 - Tollhouse Road exit on the Freeway 168, coming from either the east or west

2. Avoid using Fir Ave. to enter and exit the Clovis Community campus

- Three alternative entrances/exits suggested are Tollhouse Road (north campus frontage road), Coventry Avenue (off Herndon Ave.) and the shipping and receiving road (east of the 501 multipurpose building)
- The map included shows the alternative entrances/exits to use (see yellow stars)

Thanks for helping to keep access to our campus efficient and running smoothly!

CAMPUS MAP

MAP LEGEND

- | | | |
|---------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------|
| 1 Main Hospital | 6 Community Cancer Institute | P Patient & Visitor Parking |
| 2 Emergency (24 Hour Access) | 7 501 Multipurpose Building
